CELL 8285946468 E-MAIL shivendrasrivastava19@gmail.com

## SKILL SET

**Front-end development** –Developing and designing the front-end, webpages in html5 using bootstrap and css3. Handling client side validation with JavaScript (jQuery).

**Back-end development** – Python experience for 1 year 8 months writing back-end logic and integrating with front-end elements on web pages.

**Databases**— Creating schemas and maintaining large data in MySQL workbench.

**Add-ons** – Knowledge of django website development, node JS, angular and react frameworks of JavaScript, mongoDB and noSQL, familiarity with test suites like mocha for nodeJS applications and selenium for web page testing. Beginner level knowledge in PHP and bug tracking tool JIRA.

## EDUCATION

**Bachelor of Technology – Information Technology**  
APJ Abdul Kalam Technical University, Uttar Pradesh.  
Graduated in the year 2016 with 80.78%  
**Intermediate – PCM**  
I.S.C. board, Passed in the year 2011 with 91.50%  
**High School**  
I.C.S.E board, Passed in the year 2009 with 92.57%

## PROJECT

Designing web pages using bootstrap3 and Javascript - deployed on intranet - for tracking current run of Jython based automation scripts – combining selenium for web based automation and sikuliX libraries in python for GUI based automation. Site traffic over 180 concurrent users.  
Designing and coding the back-end logic of python programs that served end to end automation of business processes in SAP for our client’s support staff – L1 support groups.  
Creating and maintaining MySQL database for accommodating around 6,000 records per month owing to issues in several SAP modules, which were in turn resolved through automation.  
Server for redirecting tickets to relevant resolvers in Node JS.

## LEARNER's HUB

### Version Control System – github

<https://github.com/Shivendra2407/node-web-server>

<https://github.com/Shivendra2407/node-mongo-api>

### Cloud platform -- heroku

<https://calm-ocean-40397.herokuapp.com/>

---

## CURRENT EMPLOYMENT

### Infosys Limited

Trained in python and web application

Working currently as System Engineer at Infosys Ltd. Pune.

(July 2016 – Present)

---

## PERSONAL INFORMATION

### Hobbies -- Writing

### Citizenship -- Indian

### Professional Skills --

Proficient Communication skills

Team player

Opportunist to learn new technologies and self-motivated

### Achievements at college--

Runner-up at an autonomous robot showcase event in 1st year

Developed shopping website in dot net in 2nd year

Published paper on 'automatic summarization' in college journal in 3<sup>rd</sup> year

Won paper presentation event on social causes -- in 4th year.

**Others --** Anchor for college level events, training and placement coordinator, event management/volunteer

**Languages** English and Hindi (Read and Write)

**Current Location** – Pune, Maharashtra

**Hometown** – Lucknow, Uttar Pradesh
